Subject: Re: Data packages

We will scan them and send them to you. Do you want one file once we are finished next week? Yes, to the field blanks/duplicates.

Subject: Data packages

We are consolidating the data packages for Dimock in R3. R9 is sending me a scanned copy of their packages. Are you planning to do the same? Hardcopy?

And, since all of the field blanks were clean and field dups were U we can consider this data evaluated against the field QC. Is that correct?
